

# IRISH GOVERNMENTS REACH AGREEMENT

## TERMS ANNOUNCED BY WINSTON CHURCHILL IN HOUSE OF COMMONS

One of the Most Important Yet Reached Toward Bringing About Peace Between North and South Ireland—Belligerent Parties Unite to Maintain Law and Order

(By The Associated Press)  
LONDON, March 30.—Winston Churchill, imperial secretary for the colonies, announced tonight in the house of commons the terms of the most important agreement yet reached between representatives of the northern and southern governments in Ireland for bringing about peace. The agreement reached with unexpected expedition at a conference between delegates of the Irish groups and representatives of the imperial government, far transcends in importance the past arrived at between Michael Collins, head of the provisional government, and Sir James Craig, Ulster premier, at an earlier stage in the negotiations. It provides for reorganization of police in Ulster on a basis satisfactory to the religious leanings of the people of the north and the south; for the trial of persons charged with serious offenses by a special court composed of the highest justices; for general co-operation between the north and the south of a most promising character and for assistance from the British parliament to remedy the unemployment difficulties in Belfast which rendered the carrying out of the previous Craig-Collins pact almost impossible.

## STRIKE ORDER TO BE FOLLOWED BY ILLINOIS MINERS

Separate Agreements Believed Salvation of the Union

(By The Associated Press)  
SPRINGFIELD, Ill., March 30.—Illinois' 95,000 miners who dig fifteen percent of the nation's supply of bituminous coal and forty-four percent of the soft coal produced in the central competitive field comprising Illinois, Indiana, Ohio and Western Pennsylvania planned tonight to follow strike orders and suspend work after tomorrow in the mines but with their leader, President Frank Farrington, still seeing in separate district agreements "the salvation of the miners' union." Mr. Farrington declined to discuss the strike beyond placing the blame for the present situation upon John L. Lewis, international president of the United Mine Workers and asserting that "Lewis' star is setting." Closing hour at most of the Illinois mines will be 4 P. M., tomorrow. President Farrington expects to leave tomorrow for Franklin county to address a miners' meeting at Sesser, April 1.

## HEAVY RAINS DELAY FLOOD

(By The Associated Press)  
MEMPHIS, Tenn., March 30.—Heavy rains in territory between Cairo, Ill., and Memphis yesterday and last night will delay the arrival of the crest of the Mississippi river flood here until Saturday morning, the weather bureau announced tonight. The rain-fall will also bring a maximum stage of 42.7, or 42.8 feet at Memphis it was announced and will prolong the passage of the crest. In this part of the river, the sloughing of the approaches to the old front levee at Old Town, Ark., two miles south of Helena, for a short distance was reported. Prompt measures prevented the situation from becoming serious said Major L. Y. Kerr, United States engineer in charge of the levees. Completion of a sub-levee of sandbags between the embankment which was saving and the main levee will be completed by morning, Major Kerr said.

## HARDING MAY BE ASKED TO TAKE HAND IN STRIKE

House Labor Committee Discusses Wisdom of Move

(By The Associated Press)  
WASHINGTON, March 30.—The wisdom of asking President Harding to invite representatives of miners and operators to meet here tomorrow in an eleven-hour effort to call off the coal strike was considered today by the house labor committee but without action being taken. Believing there still was hope of preventing the shutdown in all fields set for tomorrow at midnight two committee members proposed that the president be requested to take a hand. Word had come from the senate that Chairman Borah of the senate labor committee had such a proposition in mind and the house committee went at once to suggest joint action. Mr. Borah explained that his committee had not been advised as to such a vote and that he did not feel at liberty to take up the question alone. The house committee then discussed resolutions presented by Representatives London, Socialist, New York and Upshaw, Democrat, Georgia. Both similarly drawn were laid on the table. The aid of the president in the task of trying to bring the miners and operators together was suggested after Dr. Worth M. Tippy, representing the federal council of churches of Christ in America, had urged effort by congress toward lasting peace in the coal regions. While John Moore, legislative agent of the United Mine Workers was giving the Union side of the trouble, Chairman Nolan asked if the organization would object if the president should step to the front and invite the warring factions here. "If the president were to send a wire tonight asking the miners to come here or go anywhere else and meet the operators," Mr. Moore said, "the first train out would find them aboard. We always have been anxious to meet them."

Asked as to the union's attitude toward a 30 day suspension of the strike order, Mr. Moore said: "I am not prepared to answer for President Lewis. As I see it there is little likelihood of an invitation going out. We do not want government interference until we have exhausted all our efforts to settle the strike. If the American people get all the coal they want in April they will be satisfied and if the government estimate of 55,000,000 tons above ground is correct there will be no suffering during the next month. But we prefer to work out our own salvation. "Knowing the operators as I do I have every reason to believe they will yet signify an intention of meeting us."

Officials of the National Coal association were present but were not asked as to how the suggestion of going to the president appealed to them. They offered no view. The hearing, which is being held in connection with a resolution by Representative Bland, Republican, Indiana, for appointment of an investigating commission by the president is expected to bring together the leading figures on the miners and operators; but Mr. Moore said that John Lewis, the union president was too busy getting out strike orders to come here now. "But he will be here Monday if he is not in jail," he added. Mr. Moore predicted that all non-union miners, who produce 30 percent of the coal output, would not work with the union men, "if women are not used in the non-union fields."

## ADVOCATES STORY OF JONAH AND THE WHALE

CHICAGO, March 30.—Jonah and the whale, the children in the fiery furnace as well as creation of the world in six days and many other biblical stories are wonders and literary masterpieces which children will learn to love if the bible is not forced on them, Henry F. Cope, general secretary said today at the convention of the religious education association. The association is now engrossed primarily in week-day religious schools Mr. Cope said. Eight such schools established in Gary, Ind., are teaching children of 28 religious faiths. Speakers today said these week day schools usually require attendance only one half day a week, but are sufficient to inculcate high standards in the children.

## STATE RESTS IN KINCAID PAYROLL ROBBERY TRIAL

Sheriff Dunbar is Important Witness for the State Thursday

(By The Associated Press)  
TAYLORVILLE, Ill., March 30.—The state rested its case tonight in the trial of the alleged Kincaid payroll robbers. Sheriff Dunbar of Christian county and two former pals of Jerome Lockhard, the sheriff's accused deputy were important witnesses for the state today. After repeated objections by the defense to questions put to Sheriff Dunbar were sustained by the court, the sheriff was permitted to testify that Lockhard boarded a St. Louis bound train at Litchfield on December 15, the night the bullet riddled body of "Peg" Lockhard, who is said to have confessed participation in the \$95,000 robbery, was found near Edwardsville. Jerome Lockhard on the day of the robbery—August 13, 1921—was assigned as a deputy to guard the payroll. He is on trial with his brother, Jesse Lockhard, and "stuttering Jimmie" Lotsey. Sheriff Dunbar testified that he was told by his deputy that "Peg" knew the robbers and that Jerome said he would "turn them in" unless he got some of the money. Homer Greenwald, indicted with the defendants, testified that Jerome told him of plans for robbery, discussed it after it occurred and promised him some of the loot to act as Jerome's "alibi man."

Greenwald avoided a direct reply when asked on cross examination if he had been promised immunity for turning state's evidence. For the second time since the trial began a witness was called "a liar" on the stand. "Stuttering Jimmie" shouted the accusation at a witness yesterday and Mrs. Jerome Lockhard applied the epithet to Greenwald today when he testified that he had received money from her in connection with the robbery plot. John Spellish also under indictment testified that he had been invited into the conspiracy by Arthur Lockhard another member of the former deputy's family, who has not been apprehended. Spellish said he was "declared out" by "Stuttering Jimmie" after the latter saw him. Spellish testified that he was taken into the confidence of the gang during a talk with Arthur Lockhard "in the jungles near Virden" and that Arthur promised to give him a share of the loot after Lotsey refused to take Spellish "in on the job."

"Arthur said the job would be easy because Jerome was guarding the payroll," Spellish said. The witness said Jerome showed a gun to John Lockhard, "Peg's" father and told him some members of the family were talking too much. Night sessions have been started to speed the trial.

## MAN NEAR DEATH AT NIAGARA FALLS

(By The Associated Press)  
NIAGARA FALLS, N. Y., March 30.—Jeffrey Wilson, Rochester, was rescued tonight from a rock in the Niagara river less than 200 feet from the brink of the American falls. Shortly after 9 o'clock persons near the falls heard cries for help. They investigated and saw a form clinging to a rock near the middle of the American upper rapids. Police and firemen were called out their efforts to reach the man with extension ladders failed. Patrolman Charles Smith then vaded out into the rapids. Fastened about him was a rope which "as held by another patrolman on the bank. About 100 feet from shore Smith was caught in the current and swept from his feet. After a struggle he regained his footing and worked his way to a rock a few feet from that to which Wilson was clinging. After a few minutes Wilson leaped and the policeman caught him. The trip back to shore was a slow struggle against the swift current. Wilson was unable to talk much. He said he had slipped into the water and denied he had attempted suicide.

## SENATE COMPLETES APPROVAL OF ARMS CONFERENCE PACTS

Last One is Nine Power Agreement for Chinese Tariff

(By The Associated Press)  
WASHINGTON, March 30.—The senate completed its approval of the arms conference treaties today by ratifying the nine power agreement for revision of the Chinese tariff. The vote was 55 to one. Senator King, Democrat, cast the only negative vote. Earlier in the day the senate had ratified 66 to 0, the far eastern treaty, drawn to guarantee a new bill of rights to China. The momentum with which the ratification program was swept to a conclusion exceeded the expectations of the administration leaders who had not hoped to end the debate before tomorrow night. The senate set a new record for action four ratifications in international covenants having been ratified within two days and six within the last week. Virtually no difference of opinion developed over the far eastern treaty, altho Senator Borah expressed a fear that it and the other far eastern settlements of the arms conference might be interpreted in years to come as giving "moral assent" to all the acts of aggression that have been committed in the past in the orient. He voted for ratification. Over the tariff treaty several sharp exchanges took place, with Senator Hitchcock senior Democrat of the foreign relations committee and Senator King, leading in criticism of American participation in the fixing of Chinese customs schedules. Senator Hitchcock did not vote on ratification. In defense of the treaty, Senator Underwood, Democratic leader declared all the powers already were involved in treaties stipulating China's tariff schedules and now were acting together to ameliorate the situation so far as practicable. Final senate action on the treaties brought to an end a determined campaign of the administration leaders which has kept the senate in recess from day to day for weeks and has virtually prevented transaction of legislative business since debate began on the Yap treaty on February 21. Most of this period was devoted to the four power pact. A compilation of the results of the seven ratification roll calls shows that on five of the seven treaties the senate acted with virtual unanimity. The votes follow: Yap treaty, 67 to 22. Four power treaty, 67 to 27. Supplemental four power treaty, 65 to 0. Naval limitation treaty, 74 to 1. Submarine and noxious gas treaty, 71 to 0. Far eastern treaty, 66 to 0. Chinese tariff treaty, 58 to 1.

## DAVIS SAYS THERE IS NO EXCUSE FOR RAISE IN THE PRICE OF COAL

Secretary Also Says That There is No Prospect of a Shortage as There are Big Stocks in Storage—Expresses Disappointment at Failure of the Operators to Confer

(By The Associated Press)  
WASHINGTON, March 30.—While stating that a general strike in unionized bituminous coal mines is certain to begin Saturday, Secretary Davis declared in a statement tonight that the situation leaves "no excuse for advance in coal prices" and no prospect of coal shortage. Reviewing the government's efforts to achieve a settlement in advance, Mr. Davis expressed "keen disappointment at the failure of certain operators to fulfill the terms of their obligation" to confer with miners for the making of new wage agreements which might have prevented suspension of work. "All the government's efforts in the proffer of mediation, conciliation and compromise," he said, "have failed to save the country from the national test of economic strength between employer and employee in the coal industry. \* \* \* In this effort the president and myself have had neither legal nor personal desire to dictate any program."

## PLANS TO PROBE DEATH OF TWINS ARE ABANDONED

Only a Few Seconds Separate Deaths of Famous Twins

(By The Associated Press)  
CHICAGO, March 30.—An investigation of the deaths of Josef and Rosa Blazek, known as the "Siamese Twins" was started today by Coroner Peter Hoffman, but following a conference with the doctors connected with the case he abandoned his plans and authorized the issue of a death certificate. Frank, Jr., brother of the twins indicated following the coroner's announcement that he would make arrangements for presenting the bodies to some medical college for purposes of scientific study and research. The twins, according to the brother left a fortune estimated at approximately \$200,000 and a large farm in Czechoslovakia to which the brother and the 11 year old son of Rosa are heirs, as the twins died without having made their wills. Died Friday Evening. Josef and Rosa Blazek, the "Siamese Twins" died at a hospital here at 2:37 o'clock this morning. Josef's death occurred first, and was followed in a few seconds by the death of her sister. Physicians had declared early in the night that in the event of the death of one of the sisters the other would die, inasmuch as their brother, Frank Blazek had refused to permit an operation which would sever their bodies. The twins had been confined in the hospital for the last ten days. Josef was ill with yellow jaundice and this was followed by pneumonia. Shortly before her death Rosa was afflicted with bronchitis. Following the refusal of the brother to authorize the operation Dr. H. H. Breakstone, chief of the surgical staff of the hospital declared this morning that it would (Continued on Page Three.)

According to a census report, the cost of government in Illinois last year was \$7.06 per capita. Back in 1918 the cost was \$4.08. That is a considerable increase, but not any larger than is true of individual expenditures compared for the same years. Anyhow, it's worth something to live in Illinois.

There are indications that the government of Mexico is soon to be given recognition by the U. S. This means that more stable conditions have developed in the republic to the south, a very gratifying thing, for there are markets in Mexico for U. S. exports in a large way. Mexico is a legitimate field for the development of the foreign trade of Uncle Sam.

Mr. Jewell says that in the operation of business wages must be given first consideration and afterward profits. So it is with rents. The financial tenant should be first considered and then the return to the owner.

This line of argument has its appeal to some people, but as a matter of fact under the right economic conditions there must be money for both wages and profits. Not until days grow more Utopian than they are now will capital be willing to make investments unless there is a fair return in addition to wages.

**THE DECATUR EXAMPLE.**

Jacksonville people can well give thought to the spirit of Decatur. Twenty years ago that city was not so very much larger than Jacksonville. Today it has a population of about 45,000 and its citizens are looking forward to a population of 150,000. This does not mean that they are idly boasting about what the future holds. It means that they have taken the figures of growth in recent years and using them as the basis for calculations, confidently believe that the 150,000 mark will be reached 15 years hence. They are planning their business and residence districts accordingly.

One of the best things about Decatur is that while growing successfully in a commercial way, the other side of its life has not been stunted. Literature and art and the things that go along with educational influences are given their due recognition in Decatur. Its development is not one-sided. Decatur affords an inspiring example for Jacksonville. What has been done there can be done here.

**THE BURDEN OF TAXATION**

By far the larger part of our local taxes goes to pay local tax levies such as those made for schools, municipal purposes and roads. The increases in our taxes are usually for these purposes. The matter of taxes is worth considering in the road elections to be held Tuesday, April 4.

The people of Jacksonville and South Jacksonville are entitled to vote for road officers in Road District 7 as well as the voters who live in the district outside of Jacksonville and South Jacksonville.

The increase in the revenue for road purposes received by district 7 is interesting.

Taxes paid the district for the last five years were:

1917.....	\$ 5,059.81
1918.....	6,095.90
1919.....	6,259.92
1920.....	6,249.92
1921.....	20,457.20

Prior to the extension of the taxes collected in 1921, Jacksonville and South Jacksonville property was not taxed for district road taxes. Under an amendment to the road laws which went into effect last July, the County Board is charged with the maintenance of the State-Aid roads which include most of the main roads leading out from Jacksonville, and the expense of their care is taken from the road district.

Voters of the road district should consider well the importance of the election to be held next Tuesday, and vote for a commissioner who can and will maintain the roads in good condition and do it economically, so as to reduce the burden of taxation. It can be done.

**MR. DAUGHERTY DARES CRITICIZE CIVIL SERVICE.**

Certainly some of the good people who are very sensitive about civil service will be vastly shocked by the statement of Attorney General Daugherty that he does not believe in civil service. The attorney general holds this opinion after his observation in Washington, where he has been led to the belief that more effective work could be secured for the government by less costly persons were not so largely under civil service rules.

Here are some of Mr. Daugherty's sentiments on this subject: "It is probably a gratuitous suggestion, but I believe the civil service is an interference to some extent in the discharge of public business. I suppose I have been voting in party platforms and local elections for the civil service proposition for a great many years. About one-half of the employees in the department of justice are under civil service. "I believe if it were not for the civil service we could get along with less than two-thirds of the number of employees under civil service and probably get twice as much work out of them. "I suppose the department of justice has a good many employees as faithful who are under civil service as those who are under the civil service in any other department, but they are not as anxious generally to be in place to commence work on the dot as they are to quit work before the dot."

**ROBBERS GET \$8,000 IN POKER GAME**

Chicago, March 30.—An alleged ring of women gamblers in whose homes poker games of varying sizes have been conducted was being investigated by the police today following statements by Mrs. Julia Magden whose home was raided by bandits early today. The robbers took \$8,000 from men and women players.

According to the police the women went from flat to flat to engage in the games, each woman acting as hostess in her turn. Scores of women, the police asserted have lost large sums of money, some of them even pawning jewelry and other valuables to break losing streaks, according to reports.

Hints at a band of professional gamblers who preyed on the new women induced to enter the games were given by men and women who admitted attending the "flat parties" when questioned by the police tonight.

Mrs. Magden, according to the police said she had been on a "poker jag" since the death of her husband several months ago. Another woman, the police said, admitted that at one place liquor was dispensed at one dollar a drink, while the "hissies" received a regulation "rake off."

W. F. Hardy Told How Decatur Has Taken The Forward Look—Planning Now For Fifteen Years.

"Plan your city like you would your home." This is the advice of W. J. Hardy of the Decatur plan commission, given to a group of Jacksonville citizens at a meeting of the Chamber of Commerce Forum Thursday night. Mr. Hardy, who is editor of the Decatur Herald, gave a very informing address on the workings of the city plan commission of Decatur. The commission was organized about four years ago with a membership of 20 citizens, and as a result a definite plan has been adopted whereby it is expected that the Decatur of the future will be in every way orderly.

Dr. C. H. Rammekamp was the chairman of the forum meeting and Mr. Hardy was introduced by Mayor Crabtree after a brief preliminary program. There was community singing led by Harlan Williamson, and then Miss Gertrude Curtis gave a violin solo, accompanied by Miss Mildred Fredlin of the Conservatory of Music. Miss Blanche Tripp, also of the conservatory, sang two solos, Miss Fredlin again serving as accompanist.

John J. Reeve called the attention to the importance of the road district election to be held Tuesday and emphasized the fact that all citizens of Jacksonville have a right to vote in this election.

**The Plan Commission.**

Mayor Crabtree in introducing Mr. Hardy referred to the Decatur man's active interest in city planning, which had led to the formation of the Decatur commission and the placing on the statute books of the city planning law.

Mr. Hardy explained that the commission as constituted in Decatur is without legal authority, but said that as the people came to understand the idea of the commission that there has been no difficulty in having its suggestions carried out.

Mr. Hardy and his associates object to having it said that the function of the commission is to beautify the city. That thought, in their opinion, carries with it too much the idea of landscape gardening or floral decorations, whereas the purpose of city planning is to do away with jogs in streets, the lack of uniformity in blocks and to bring about order and symmetry.

In the broader, basic things are taken care of that the matter of beautifying the city thru flowers and landscape gardening will take care of itself.

As the result of the work of the Decatur commission, a plan has been adopted for that city. This plan was laid out by an expert whose services were secured by the commission with the co-operation of the Decatur chamber of commerce.

**Decatur in 1937.**

Based upon its rate of growth in recent years, these citizens of Decatur who have a forward look believe that their city will have a population of 150,000 about the year of 1937. So they suggested that a plan be adopted for this size. City zoning, that is, the designation of industrial and residential areas, has its relationship to city planning, but the responsibility for zoning is placed with another committee.

The building of a lake of 3200 acres with a drive about 12 miles in length has been an accomplishment of Decatur in the last year or two, and in the development of the land the city plan was taken into account.

Mr. Hardy paid a compliment to Jacksonville by his statement that the scheme followed out there for the purchase of the water project lands was patterned to some extent after Jacksonville's plan.

Maps showing the Decatur plan were displayed upon the wall and aided the audience quite materially in understanding how the Decatur citizens are attempting to develop their city in an orderly and well arranged way.

At the close of the address Mr. Hardy gave the opportunity for questions and a great deal of interesting discussion resulted. Afterward came a social hour, during which a committee served refreshments.

**EVANGELIST DUNK COMING TO BAPTIST CHURCH.**

Evangelist Frank Dunk is to begin a series of meetings at First Baptist church here next Sunday in accordance with the arrangements made by Rev. A. P. Howells. The evangelist will come to the city with a record of excellent work done in a number of other cities, and the members of the Baptist church here are confidently looking forward to a period of deep religious interest.

The Journal yesterday received the following telegram from Rev. Percy Stevens, formerly pastor here, telling of the deep interest in the revival service just closed by Mr. Dunk at Elgin.

Elgin, Ill., March 29, 1922, Jacksonville Journal:—  
Evangelist Frank Dunk closed series of meetings here last Sunday, attendance and interest increased from first closing with impressive service and many conversions. Jacksonville is fortunate in securing such able and successful evangelist; his solos are impressive and pleasing, sermons clear and forceful, plays no tricks on people.  
Rev. P. L. Stevens.

**A Welcome Awaits You at The Auto Inn**

There were numerous mud-spattered automobiles parked in the business district of Jacksonville yesterday. The drivers had been attracted to the city by the automobile show and merchants exposition. These visitors braved the bad roads in order not to miss the show and their comments indicated that they felt fully rewarded for their trouble.

The fourth day crowd at the auto show gave proof that there is no lagging of interest, for the aisle spaces in the big Auto Inn were crowded to capacity. The car dealers were not at all discouraged or disgruntled by the dreary weather, altho of course they would have been glad if continuous sunshine and drying winds had put the country roads into more passable condition. That would have meant a great increase in the number of visitors from the country precincts and no doubt a number of additional car sales.

However, these automobile dealers have no good reason for dissatisfaction, as the various placards of "Sold to Mr. so and so" indicate. A goodly number of cars have been sold and the dealers have in addition gotten into touch with prospects that they rate as very much worth while.

The United Commercial Travelers had direct charge of the social features Thursday night and the dance attendance was very large. The committee had provided other forms of entertainment for those who did not care to dance and it was an evening of genuine pleasure for the hundreds who found their way to the second floor of Auto Inn.

The U. C. T. men proved themselves adepts with the megaphone and the surging crowd in the auto show proper were kept continuously advised of the good time possible on the second floor.

The aisles in the department devoted to merchants exposition were continuously crowded last night and the interest in the features of these various exhibits is continuous. In many of the exhibits are contests and favors and the exhibitors have neglected nothing that in their opinion will increase the interest and enthusiasm of exposition visitors.

The members of the Automotive association are to hold a business session and conference this morning at 10 o'clock. At this time a number of matters related to the present show and to the future are to be discussed. Some reports will be presented and it is expected that announcements of interest to the general public will be made. Meanwhile bear in mind that in many cities an admission charge is made for automobile shows managed on a much lesser scale than the one now in progress here in Jacksonville.

The local show is absolutely free and you and your friends are most cordially invited to attend, not once but many times. A cordial welcome awaits you at the Auto Inn.

**PROSPEROUS YEAR CLOSES AT NORTHMINSTER**

At the annual meeting of the people of Northminster church very satisfactory reports were presented. The year had closed with a balance in the church treasury and the record shows liberal contributions toward the church benevolences.

Officers elected were:  
Elders—John Day, George Day, Manuel Day and John R. Fernandes.  
Deacons—Charles E. Patterson and Wesley Sperry.  
Trustees—Joshua Vasconcellos and Walter Coraor.

A letter was read from E. M. Vasconcellos, now resident in Springfield, asking that he be not re-elected a trustee since his absence from the city makes it impossible for him to attend to the duties of the office. Mr. Vasconcellos served as superintendent of the Sunday school for a long period of years. Then he was elected a trustee and still later an elder. Thru all the years he has been a most earnest worker in the church and has always been ready to do his part in any movement for the betterment or upbuilding of the community.

**ACCUSED WOMAN COLLAPSES ON STAND**

(By The Associated Press)  
NEW YORK, March 30.—Olivia M. P. Stone, graduate nurse collapsed this afternoon on the witness stand at her trial on a charge of murdering E. G. Kinkaid, former Cincinnati corporation counsel in front of his Brooklyn home. Two state alienists, after examining her said it would be inhuman to question her further and Supreme Court Justice A. S. Pinall adjourned the trial until tomorrow.

Letters demanding money from Kinkaid, serving as a surprise by Assistant District Attorney Warbasse, appeared to bowl her over. Viciously all these letters, which he asked her to identify demanded money on threats of divorce or breach of promise suits. Mr. Warbasse said. But when each was shown to her she stoutly denied the handwriting was hers. "Miss Stone," asked Warbasse, "would you tell a lie to save your life?"

"A lie? A lie? she murmured. "I would not."

As she spoke, she collapsed. Only one other witness was heard. She was Mrs. Mae Allen, a stenographer of the Chalfont, Atlantic City, who testified Kinkaid had introduced Mrs. Stone to her as his wife.

## THE HARD ROAD TO THE SOUTH.

Editor of the Journal:—

Mr. "Tax Payer" in Thursday's edition of the Journal has an article in which he takes exception to the proposed change of Bond Issue Road (Route No. 3) whereby the same is proposed to come thru Woodson thence south along the right of way of the Chicago & Alton R. R. to Murrayville. In view of the fact that his objections to this change will not hold water when exposed to the light of day, I believe some reply is due the taxpayers and patrons of the route mentioned.

1st.—As to that portion of his letter in which he objects to the turns in the road surrounding Maple Grove School house, or rather the Butler School House, as being sharp and dangerous, beg to say, these turns in the proposed road are all eliminated. Mr. Butler has consented to have this road pass north of the school house, which will make it possible to enlarge the school grounds south of the school house and thus make it more safe for the scholars than it is even now, consequently this objection has no weight in this discussion, in other words it is a point in favor of changing the road.

2nd.—The matter of distance—He makes the statement that it will be necessary to construct an extra mile of road in order to have the same pass through Woodson and to Murrayville, via the Henry Curve. This is exactly what is not the fact, as the measured distance as proposed in the changed road is somewhere between one fourth and one half mile shorter via Woodson and the Curve, than is true of the road as proposed going west from Jacksonville to Murrayville. This fact we have ascertained by actual measurement.

3rd.—Matter of cost—The saving of one half mile of construction cost in pavement to be laid, the building of ten to fifteen concrete bridges, innumerable culverts, heavy grading, condemnation of right of way almost the entire length of the route where the road turns west until you reach a point in the road one and one half miles north of Murrayville, six sharp corners to round off, extra haulage of materials for construction, and heavy fills to be made with little dirt to make them from.

The proposed changed route calls for only two bridges, two fills, and these fills the neighbors have agreed to make without any expense to the state, provided the state can save this expense out of the contract price of the road, and Jesse Henry has consented to donate the land for a right-of-way free of cost to the county, and other land holders along the right of way to Murrayville have consented to permit the road to build over their lands without the county being compelled to undertake condemnation proceedings to secure the same. The proposed road parallels the Alton R. R. from Jacksonville to Murrayville and as it would cut haulage costs for construction materials to a minimum. Road from Jacksonville to the Henry Corner already graded, surveyed, all culverts in, and ready to lay cement now.

4th.—Matter of Safety.—The proposed road through Woodson from the point where it is proposed to turn west is almost a level road to Murrayville, while the western route will take one up and down hill all the distance until you reach a point about a mile and one-half north of Murrayville, with six sharp turns, while the Woodson road will have only two turns.

5th.—Cost of travel will be increased on the western route by extra distance, extra gasoline, extra tire wear and extra hill climbing, as well as slowing up for hills and turns.

6th.—Matter of accommodation of people, and especially the automobile owners who will be the parties that eventually pay for the road, can safely say that the eastern road will accommodate fifty (50) people to where the western road accommodates one (1).

To sum up all the facts in this matter I am unable to see one particular item whereby the western route has the edge on the eastern route.

The Eastern route is cheaper to build, shorter distance, safer to ride over, serves the most people, passes thru a more populous territory, a more direct route, and in fact cannot see why any one should object to a route that has been an established and traveled route to and from points served since roads were first laid in this county.

As for the petition for a west road, can say the east road has a petition for the change with ten names asking the change to one against it.

## PLANS TO PROBE DEATH OF TWINS ARE ABANDONED

(Continued from Page One)

It is impossible to save one of the twins in event of the other's death. Preparations had been made for the operation and physicians were ready to make every effort to save the life of at least one of the women.

Hope of saving the life of Josefa was abandoned at midnight according to Dr. Breakstone.

"I tried to get the consent of the brother to operate to save the life of Rosa, but he refused to give his permission," the physician added.

Dr. Breakstone explained that a delicate operation would have been necessary. Before their death he had expressed the opinion that the physiological affinity of the twins was so vital that if one should die the other might also succumb before the band of flesh and bone that joins them could be severed.

Altho the twins possessed respiratory and cardiac systems, Dr. Breakstone declared that they had only one set of secondary digestive and procreative organs. The operation, he said, would have necessitated the building up of a part of the digestive and other essential organs to save the life of one twin.

Rosa was once married, her

name being Rosa Blazk Dvorak. She is survived by a normal 11 year old boy. Her husband was a captain in the German army and was killed in action in 1917. She was married 15 years ago. Josefa never married.

Son at Mother's Bedside.

The little son, Franz, has been at the bedside of his mother, who, until within the last few hours was less critically ill than Josefa.

The twins were the second offspring of a normal parentage in Czechoslovakia forty-two years ago. There were four other children, all normal and all still living. The father is also said to be alive, his age being 85 years. The mother died a year ago at the age of 65 years.

During a tour of the world the twins acquired considerable wealth. They died without making a will, although their attorney has been at the hospital several days in the hope that they would be in condition to dictate a will.

As the women grew weaker last night, physicians pleaded with the brother to permit an operation. He was the only adult relative capable under the Illinois law of giving this consent.

"No," said the brother. "No, not even if Rosa lives for hours after Josefa dies. There shall be no operation."

RCES SPEEDY CONSTRUCTION OF WATERWAY

omere Wants the Great Lakes-St. Lawrence Improvement made

(By The Associated Press) CLEVELAND, March 30.—Speedy construction of the Great Lakes-St. Lawrence river deep-waterway improvement, was urged by Senator Pomerene of Ohio, in a speech tonight before the Cleveland credit men's association in which he asserted that the project was one carrying the common good of the people of the United States and Canada.

"I am so convinced of the wisdom of this project," Mr. Pomerene said, "that I would favor it even if it were to cost twice the sum estimated as necessary. It cannot fail. The present traffic of the United States now requires and the future industrial development of our country as well as of Canada accentuates the need of it."

Mr. Pomerene, discussing the future transportation needs of the country declared that none can say without "insulting our intelligence" that the middle and western sections of the country have reached the peak of production.

"The giant is just beginning to feel its strength," he asserted.

Chicago, March 30.—The International Harvester company made a net profit in 1921 of \$4,149,918.80 as compared with \$16,655,300 for 1920, according to the annual report made public today. BUSINESS MUST BE BUILT ON FIRM FOUNDATION

This is Warning Issued by the Department of Commerce

(By The Associated Press) WASHINGTON, March 30.—Altho business continues to make progress in its recovery from the depression of 1921, as indicated by figures received by the Department of Commerce since March 20, the department warned in a review of conditions made public today that rehabilitation "needs to be cautious that it may be built upon a firm foundation."

Some back sets the statement declared may be expected.

While in most lines the review added, prices have been relatively stable for the past six months the distributors still remember the disaster caused by overstocked shelves in 1920.

"Forward orders," it continued, "are given sparingly and in reduced volumes; manufacturers are feeling the effect of repeated orders and the steadily increasing output of mills and factories hows that fundamentally the country is getting back to normal."

Altho the recent marked increase in the price of farm products has had a big effect upon the morale of the agricultural districts not much of this has so far been translated into increased business. Most of last year's crops had left the farmers' hands before the rise came; the increase, is therefore, chiefly a promise of better things to come. The farmer is inclined to wait and see both as to whether the price holds and how the crop promises before making further commitments.

Exports of iron and steel last month fell off from January, in part due to the shorter month according to the review.

Production and shipment of newspaper paper decreased while stocks increased during February and prices were lower than a month ago and 40 per cent less than the corresponding period last year.

Exports of corn and corn meal reached the exceptionally high

figure of 22,354,000 bushels but exports of wheat and wheat flour fell to 10,991,000 bushels the lowest figure for any month during the last two years. Pork and beef exports while larger than the preceding month were considerably below the level of a year ago.

CHILDREN PREFER THEIR STEP-MOTHER

(By The Associated Press) DETROIT, Mich., March 30.—The tears of two little girls caused Judge Ira W. Jayne to take under advisement today the disposition of Agnes and Julia Wisniewsky, whom their father, Joseph Wisniewsky wishes to take back to his farm near Cedar Rapids, Iowa. Wisniewsky, who has been searching for the children since last September, traced them first to Chicago and finally to Detroit. They were living here with their step-mother, Mrs. Sophie Wisniewsky.

The father asked for a writ of habeas corpus and Judge Jayne took testimony on both sides. Afterward he talked with the little girls in his private office and found that a deep attachment existed between them and the step-mother, who has obtained employment as a violinist in an orchestra and says she will support the children.

## CLOTHING MEN HERE FOR CONFERENCE

Officers and Directors of the State Association Talked Over Plans for Work—Visitors Praised Auto Show.

The first meeting of the directors of the Illinois Retail Clothiers association under the newly elected officers was held at the Pacific hotel Thursday morning at ten o'clock. The meeting was called to order by President T. M. Tomlinson.

The following officers and directors were present: H. S. Leavitt, secretary, Kankakee; A. C. Carlson, treasurer, Princeton; Directors L. J. Hartman, Alton; A. E. Sandberg, Paxton; R. E. Hall, Mendota; H. Lebowich, Oregon; M. Hoffman, Centralia; J. A. Smith, Joliet; D. E. Farr, Alton; M. Lowenstein, Urbana.

Local merchants who attended were Henry Frisch, Sherman Dorr and Tom Duffner.

Among some of the topics under discussion were truthful advertising, the co-operation of the merchant with the consumer and efforts to stabilize prices.

R. E. Visk, of the men's apparel club of Illinois was present at the meeting and pledged the active support of their club to co-operate with the clothiers association in their effort to increase their membership. Plans to this end are being worked out by the two associations jointly and it is hoped that in the next 90 days every representative retail clothier and furnisher in the state of Illinois will recognize the benefits to be derived from a membership in the Retail Clothiers association which benefits can be passed on to the consumer. Plans were made for the annual convention to be held in Chicago, Feb. 13-14-15, 1923.

A three days program was decided upon and efforts commenced to make it one of the largest and most interesting affairs in the history of the association. The men's apparel club will cooperate in an effort to get speakers of national repute and furnish entertainment that will make the affair long remembered.

While in the city the clothiers attended the Auto Show and Merchants' Exhibit and expressed

surprise at such a comprehensive exhibit outside of larger cities. An interesting as well as instructive trip was made thru the J. Capps & Sons woolen mills. The clothiers left Jacksonville much impressed with the city and the hospitality shown them.

**FRUIT PROSPECT GOOD**  
IN MORGAN COUNTY.

There is every indication that this will be an excellent fruit year in Morgan county, according to the opinion of a number of men experienced in the raising of fruit. The condition this year is in marked contrast with that of last year at this time, when the fruit prospects had been entirely ruined by the freezing weather.

A. M. Hoover, who owns a large orchard north of the city, is firmly of the opinion that there will be an excellent fruit yield this year. It is his statement that the early apple trees are well filled out and that the same is true of plum, cherry and peach trees. Mr. Hoover has had occasion to observe the orchards in a number of localities in both Morgan and Cass counties, and he has noticed the unusually fine fruit prospects.

## LARGE AUDIENCE AT NORTHMINSTER CHURCH

**Many Hear Dr. Sears Deliver Sermon**  
**Lecture on "Don't Worry"**  
**—Meetings are Being Held**  
**Nightly.**

The largest attendance which has yet been present at the Northminster church revival heard Dr. Sears Thursday night deliver his sermon lecture on the subject "Don't Worry." A song service preceded the sermon and the large chorus choir under the direction of Frank Bracewell made a fine showing, as has been true on previous evenings.

Dr. Sears based his sermon upon the text, Matthew 6:34, "Take no thought for the morrow." He said in part: "First, don't worry about the things you cannot help and then don't worry about the things you can help. If you will follow this rule you will find a happy world in which to live."

"You never settle the things about which you worry, no matter how much thought you give them. What appears to be evil may prove a blessing in disguise, and what seems to be against us is sometimes the very thing we need."

"I do not believe in a long faced religion. Religion should bring joy and peace. The people who worry are the ones who have the least faith in Christ. Faith will drive away all worry. I see something every day to laugh at, and you will too if your life is right. Have faith in God and go on your way smiling and the world will give you a welcome place."

"If you would make the world brighter and better, if you would aid in dispelling the clouds that gather about and darken many lives, then spread the sunshine and joy about."

"Worry is causing more insanity than all other causes and killing more people than any disease in the world. Don't worry, for it is a sin. It unfits you for the duties of life and hinders others."

If any one in Jacksonville is bothered with the blues, hear "Dad" Sears and you will be cured of this dreadful disease. Everybody in the city is invited to hear the "taffy" man every evening at 7:30 o'clock.

**Only one more chance to attend the Union Lenten Services. Tonight at 7:30 o'clock the final meeting of the week will be held at Central Christian church. It will be well worth your while to attend this enjoyable service.**

**KIWANIS CLUB IN**  
**WEEKLY SESSION**

**Decatur Man Made Brief Address**  
**—Always Important Question of Good Roads Presented.**

At the meeting of the Kiwanis club at the Peacock Inn Thursday noon W. F. Hardy, editor of the Decatur Herald, made a brief address. Mr. Hardy gave members of the club just a few facts about the work of the city planning commission. The Decatur man was out at 12:30 o'clock but his train was more than half an hour late and consequently he did not reach the club session until almost the time for adjournment.

President Felix E. Farrell presided and introduced Frank J. Heintz, who presented some interesting statistics about road conditions in this country, especially in relation to road district No. 7. Mr. Heintz has for years given attention to road work and the facts presented proved of great interest to the Kiwanians.

Carl E. Robinson made a brief report as chairman of the convention committee and Dr. Thomas McLin of Jacksonville State hospital was introduced as the newest member of the club.

Attendance prizes were awarded to John G. Berger and Dr. F. A. Norris. Mr. Hardy was introduced by Mayor Crabtree, who referred briefly to the excellent work which the Decatur city plan commission has done under the leadership of Mr. Hardy. Guests of the day included, in addition to those already mentioned Chase Savage of Virginia; G. Stedler, Manager Jacksonville Creamery Co.; R. R. Brooks, Mattoon; R. R. Rousseau, of Chicago; Thomas Endsley of Peoria and Monte Gist of Jacksonville.

**FUNERALS**

**Bahan.**

The funeral of Frank Bahan was held yesterday morning at 8:30 o'clock at the Church of Our Savior. The services were in charge of Rev. Father F. F. Formaz and interment was made in Calvary Hill cemetery.

The bearers were Michael McGinnis, John Buckley, James Dunavan, John Roach, Michael Casey and John Clary.

**MANY ROBBERIES**

**ATTRIBUTED TO TRIO**

Chicago, March 30.—More than one hundred robberies were attributed by police tonight to the operations of a band in which two women were members, following the arrest of John Benson, alleged escaped convict. With Benson the police took Mrs. Edythe Benson, said to be his wife and Miss Mildred Wilson, a friend. Benson, according to the police made a confession in which he was said to have told of scores of homes he had helped to rob.

Solomon, Mrs. William Wade and Mrs. Daniel Golliday.

A delightful program of music and games made up the evening's entertainment. Later a supper was served by the hostesses, the menu being an elaborate one. Altogether it was one of the most pleasant affairs of the club year.

**High School Notes**

The results of the ticket sale contest for the moving picture shows at the high school were announced yesterday as follows: Freshman Class—153 tickets sold; 7.5 tickets per member. Sophomore Class—110 tickets sold; 7.8 tickets per member. Junior Class—128 tickets sold; 8.8 tickets per member. Senior Class—132 tickets sold; 1.5 tickets per member.

The class which sells the largest number of tickets per member will receive the prize in the contest. The result shown above are for the tickets sold for this week's picture. The next picture will be "Silas Marner," and will be shown Monday night. The ticket contest ends with the sale of tickets for this picture.

High school students are showing interest in the poster contest which is being conducted by the Jacksonville Woman's Club. What does Jacksonville need most? A union station, boulevard lights, attractive bridges as one approaches the city? These are some of the suggestions and the student is free to use his imagination in working out some scheme of ideas for his poster. \$12.50 is being offered by the Woman's Club in prizes. The contest closes April 15th.

The advance seat sale for "Miss Somebody Else," the Senior class play to be staged tonight in the high school auditorium has been very successful and nearly all the best seats in the house have been sold. The 75c seats have been practically sold out and the 50c seats are going fast. This fact assures a good crowd for the play and is very encouraging to the cast and to Miss Adele Shelah who is coaching the production.

A full dress rehearsal was held last night and all the properties for the play were also used. The play is a clever comedy and is very attractive in setting and strikingly original in plot. There is a large cast and the students have done good work in the character parts. Miss Frances Griswold is the property manager and Clarence Wilson is the business manager.

Today is the birthday of the Sophomore class of Illinois Woman's College and the members of the class are planning special celebration of the day. The class was reorganized last year on March 31st, and this date is hence known as its birthday. There are sixty-four girls in this class and Miss Harriett Witmer is the class faculty advisor.

The birthday celebration was begun last night when the Sophomores had table parties at dinner last evening in the college dining room. Each of the Sophomore tables was decorated for the occasion with yellow and white, the class colors, lighted candles and flowers being used very effectively. An angel food cake for the birthday was placed on each table and the affair was quite successful and delightful.

After dinner the Sophomores gave an entertainment in the social room for the other students of the college. Miss Marguerite Sturgeon was the chairman of the committee for the entertainment and some very clever stunts were given. Miss Ella Herman had charge of the arrangements for the celebration and Miss Lucille Vick is the class president. Special music will be given in chapel this morning and the girls will sing the Sophomore class song.

FOR WOMAN'S CLUB

Edna Swanson Ver Haar, contralto, recently of the Swedish Choral Society of Chicago, will appear in concert in Jacksonville on Tuesday evening April 4th at the high school auditorium. The artist comes under the auspices of the Jacksonville Woman's Club in their annual concert which is always a treat to music lovers in the city. Mrs. Carl Robinson is the chairman of the committee in charge of the concert this year. Edna Swanson Ver Haar is one of the most satisfactory concert and oratorio contraltos before the American public. Since her first professional appearance 4 years ago, she has steadily grown in popular favor, the increasing demand for her services keeping pace with her remarkable artistic advancement. During this time she has appeared with leading orchestras and choral organizations with unvarying success. During the past summer Madame Ver Haar sang in Sweden as soloist with the Swedish Choral Society of Chicago, and achieved a sensational personal and artistic triumph. This series of forty concerts was marked by a continuous ovation for this talented artist. Appearing in all the principal cities of the country, she was everywhere acclaimed as one of the brightest stars in the musical firmament.

The Chicago Tribune in referring to Miss Ver Haar after her recent Chicago concert says:

"Miss Ver Haar's beauty is as far famed as her gift of song and last evening they were both at their exceptional best."

The critic of the Chicago Herald and Examiner says:

"Edna Swanson Ver Haar has a beautiful voice, which she well knows how to handle. She is one of the prettiest girls in America and is one of the best known in Chicago musical circles. "She delivered her aria with effective skill, singing its music with appalling charm of tone and with good musical taste."

A Tazewell county tenant farmer has \$1,200 to show for his 1,100 bushels of corn raised in 1921, and has a herd of thirty-four hogs remaining which have been fed from the corn all winter.

L. W. Woodruff of Mackinaw, Illinois, operates a quarter section farm on a share basis. He feeds his half of grain to pure bred hogs, while the landlord sells the grain. The entire crop last year amounted to 2,200 bushels. Mr. Woodruff fed his half to twenty-five fall pigs and two truck loads of fattening hogs. The latter were sold on the Peoria market for \$400 and fourteen of these Poland China bred sows were sold at auction for \$808, which shows him better than \$1,200 for his corn, or about \$1.17 per bushel, and besides he has seven sows, twenty-five fall pigs and two boars left. The landlord and neighbors were selling their corn at the same time at about 45c per bushel. Mr. Woodruff stepped over to the National Swine Show last fall and placed a spring pig above all other Illinois entrants.

South Dakota claims the distinction of growing the champion long distance producing sow of America. W. S. Bush of Fairfax, South Dakota, purchased a Poland China gilt in the autumn of 1906, which was farrowed the preceding spring in the herd of J. M. Porter of the same community. She farrowed a litter in the spring and fall of 1907, and twice per year thereafter, without missing, to and including 1921. She farrowed thirty litters on the Bush farm, and no litter was less than eight, and from that to twelve. Mr. Bush says she always raised the most of each litter. "Grandma" was the dam, granddam or ancestor of every hog on the Bush farm. She became entirely deaf, and was somewhat helpless, and this spring when Mr. Bush had a carload of fat hogs ready for market, he loaded "Grandma" in and shipped her to Omaha. This sort of reward is a poor inducement to other aspiring swine matrons to achieve.

ADVANCE OF PRICES  
IN WHEAT MARKET

By Associated Press.  
Chicago, March 30.—Approval given by the senate finance committee to 30c import duty on wheat had much to do today with an advance of prices in the wheat market here. Closing quotations were unsettled 1/2c to 3/4c net higher. May \$1.35 1/2 to \$1.35 3/4 and July \$1.19 1/2 to \$1.19 3/4. Corn gained 1/2c to 1 1/4c and oats 1/4c. In provisions the close varied from 1/2c decline to a gain of 10c. Inasmuch as the proposed duty on wheat would mean an increase of five cents over the rate in the Fordney bill, and as the committee has also approved an increase of 20c a hundred weight on flour, an immediate effort was made to stimulate sentiment in the wheat market. The view was taken by many traders that such a law would go far to shut out all wheat importations from Canada or Argentina. An unexpected advance in Liverpool quotations and gossip that smaller shipments from Argentina to Europe this week might be looked for tended also to life values here.

Persistent buying on the part of Eastern interests that were the leading sellers last week was a feature of trading in the May delivery of wheat and gave the month much more of an upturn in the price than was the case with July and September.

In this connection it was noted that shipments from most of the primary centers were exceeding the receipts.

Nearness of the opening of lake navigation formed an additional subject of comment.

Weather and wheat strength accounted for gains in the prices of corn and oats.

Realizing sales by smaller packers and by commission houses largely counterbalanced in the provision market the effect of higher prices on hogs.

### CURED BY A NATIVE HERB

On board a vessel bound for India recently a man was bitten by a poisonous reptile; both the ship doctor and a famous surgeon failed to control the poison fast spreading thru his system.

In a day the vessel reached port. An Indian medicine man was sent for, who produced a native herb which quickly allayed the poison and the man's life was saved.

Roots and herbs are nature's assistants in combating disease. That well-known medicine for ailments peculiar to women, Lydia E. Pinkham's Vegetable Compound, is prepared from roots and herbs, possessing medicinal properties of great value in the treatment of such ailments.

This is proved by the letters of recommendation we are continually publishing in this paper for it.

## WHITE HALL FISHING CLUB ORGANIZES

White Hall, March 30. — The White Hall Fishing Club, at a meeting Tuesday night, organized for the current fiscal year by retaining the former officers. The club controls the fishing privileges of the city reservoir.

Sgt. Leland Fitzjarrell has arrived at Fort McKinley, Maine, where he will be stationed until he is mustered out of the service, when he will come on to White Hall with his German wife. He arrived at Portland, Maine, on the 21st.

The recent activity in the local band organized is bringing excellent results under the direction of F. A. Brooks. It is stated by A. M. Nevius, one of the main promoters of the organization, that the outlook is highly encouraging for the building up of a splendid musical organization out of local band material that will take a leading place in band affairs during the ensuing year.

SCHOOL TEXT BOOK QUESTION AGITATES BLOOMINGTON.

The question of free text books is one that is receiving attention at Bloomington just now and will be submitted to the voters at an election next Monday.

The Bloomington Pantagraph makes this comment on the subject:

"Interest in the free text book proposition is to be submitted to voters of Bloomington next Monday, continues to increase daily and grows more intense as the time for decision draws near. It appears that Bloomington is divided on this question, which in some states has been made the paramount issue in elections."

"Several citizens of McLean county have expressed their disapproval to the proposition to provide free text books to school children at public expense. Some of the arguments advanced by those opposed are:

"The free text book proposition if carried here will involve an initial expense to Bloomington of \$18,000, from which the city would derive no appreciable benefit. Those children who are unable to supply themselves with text books secure them at the expense of the community, from a special fund set aside by the board of education for that purpose. No stigma of pauperism is attached to the school child who is supplied with free text books at the expense of the community. School text books for the complete eight years of elementary school is estimated by Bloomington school board to be \$29.30 per pupil. This is within the reach of every citizen of Bloomington."
